### Employment Background

1) Back-end web developer(intern) at Toughblue Uganda Ltd June, 2021 to August, 2021

I worked as a back-end developer at Toughblue Uganda in the IT department, where I was responsible of deploying websites on the internet and monitoring their performance through the

development of support applications for monitoring such as Monit and also we deployed a company support platform for sharing information (Doku wiki), writing reports.

This position made me acquire skills of web deployment, error debugging, creating and monitoring the server activities, team work skill, documentation and report writing and also gave me a proper understanding of the use of Linux operating system.

2) Data Entrant (Part Time) At JA Data Centre (February, 2021 to May, 2021)

I worked as a data entrant at JA Data Centre where I was responsible of entering data into the system, writing daily reports about the data entered, challenges encountered and also analysis of the data entered.

This Position made me acquire the skills of data entry, data analysis, team work and report writing.
